

Pragmatic Systems International Corporation

Pragmatic Systems International Corporation is comprised of professional staff with expertise in project management (**PMP certified**), systems evaluation, development and implementation. Our industry experience is strongest in the travel industry, having worked at airlines, cruise lines, tour operators and global distribution systems. However, our skills are generic in nature and can be applied to multiple industries. We have also been successfully engaged in security related projects for the cruise line industry.

Consulting Practice

Pragmatic Systems provides our customers with cost effective solutions based on a unique hybrid blending the best principles of major consulting firms and pragmatism associated with predominant work experience in industry. If we cannot deliver, we do not accept the assignment.

Our company references are impressive in the travel and utility industries. Our clients include the largest cruise lines, a luxury travel provider and a major gas utility company. Please go to the Case Studies section of our site for a more in-depth review of the types of services we provide.

Educational Provider

Pragmatic Systems offers a unique educational program. Directed toward companies that want to train multiple project managers, the course follows the principles of PMI combined with the additional value of project management "veteran experience".

We provide templates including communication plans, estimating worksheets and guidelines and others that can be customized for the companies. We focus on sound principles of estimating and provide suggestions for the management of multiple projects simultaneously. We are a Registered Education Provider (REP) of PMI.

What We Can Do For You

Security Systems Focus

Currently engaged with client to ensure compliance with Visa Cardholder Information Security Protection (CISP) system. Also helping to implement a system for compliance with Advanced Passenger Information Systems, part of Department of Homeland Security initiatives for cruise lines.

Reservations System Expertise

Helped luxury cruise line implement a packaged cruise line reservation system and assisted with the set up, control and management of business rules associated with pricing and packages. Working on deployment of revised travel agency booking system for travel agency community.

Call Center Expertise

Implemented a speech based IVR system for busy call center of major utility company.

Web and XML Experience

Worked with latest XML based technology and utilization of web systems in multiple projects.

We can come to your rescue as we have for other companies. Our approach is PRAGMATIC and COST EFFECTIVE. We work closely with in-house staff to ensure self-sufficiency by client after we have completed our assignments in:

- Project Management—we provide PMI backed training
- IVR Technology
- Management Information Systems
- Systems Development expertise

Delivering Pragmatic Systems and Solutions to cruise lines, airlines, travel providers, utility companies and to you. Find out more on our website, www.pragmatic-systems.com.
